KD LINE ALUMINUM WINDOWS AND DOORS

WHERE EXTRAORDINARY MEETS AFFORDABLE

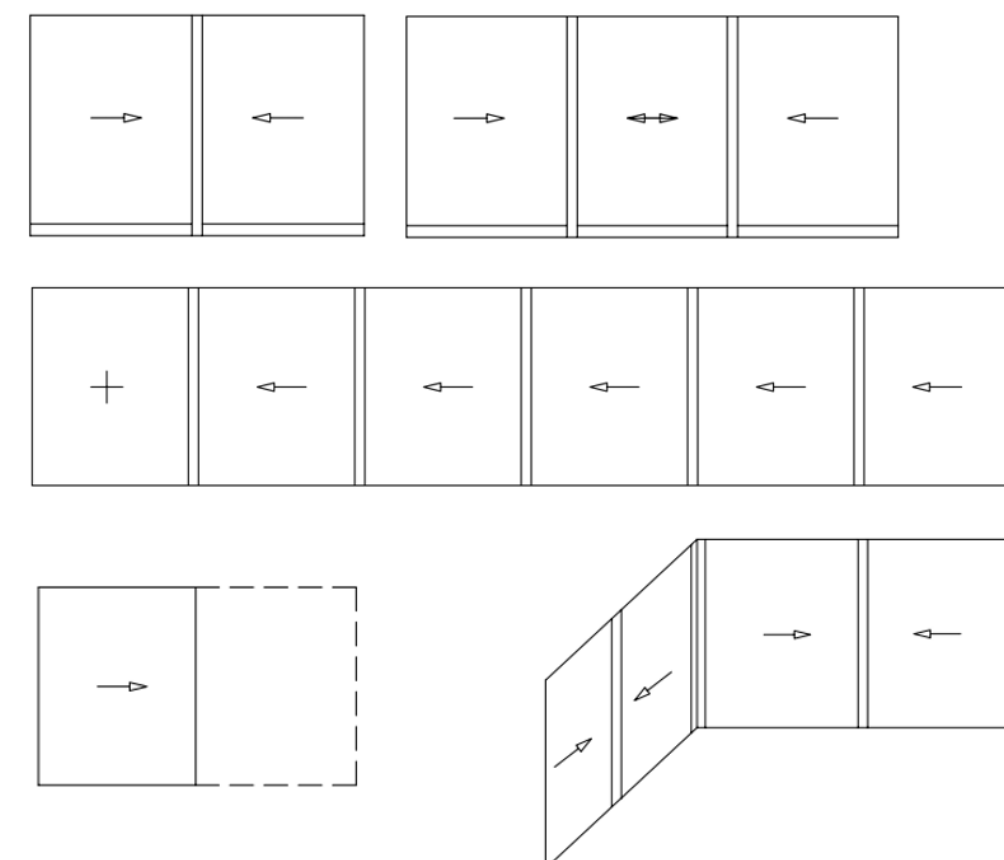

KD LIFT & SLIDE AND SLIDING DOORS

Our aluminum sliding and lift & slide doors shine with modern, minimal lines, high-end German ROTO or Sigenia hardware as well as multipoint locks. The doors are available with a low sill that allows for seamless transitions between the interior and exterior to round off the package.

CONFIGURATIONS

Windows tested
in NCTL and QAI

Thermal tests and simulation
according to NFRC and AAMA

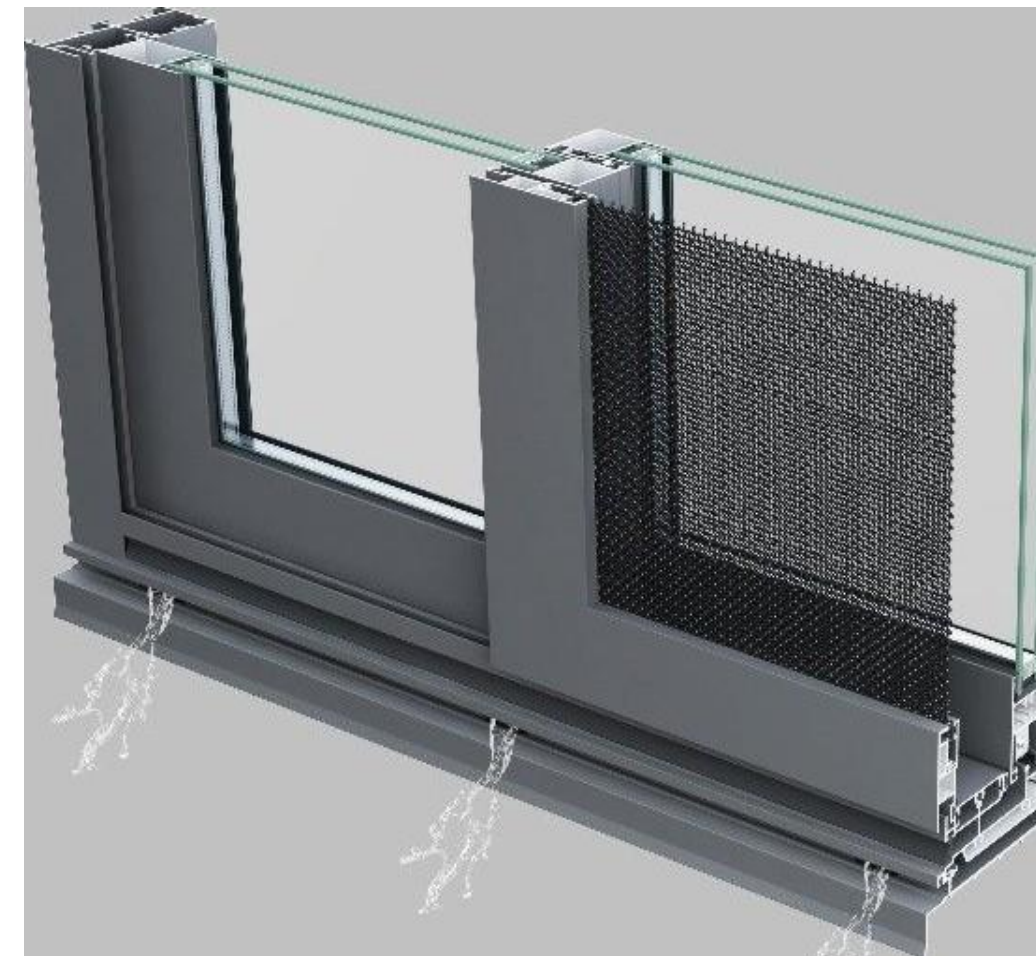

Windows tested in high-velocity
hurricane zones (HVHZ)

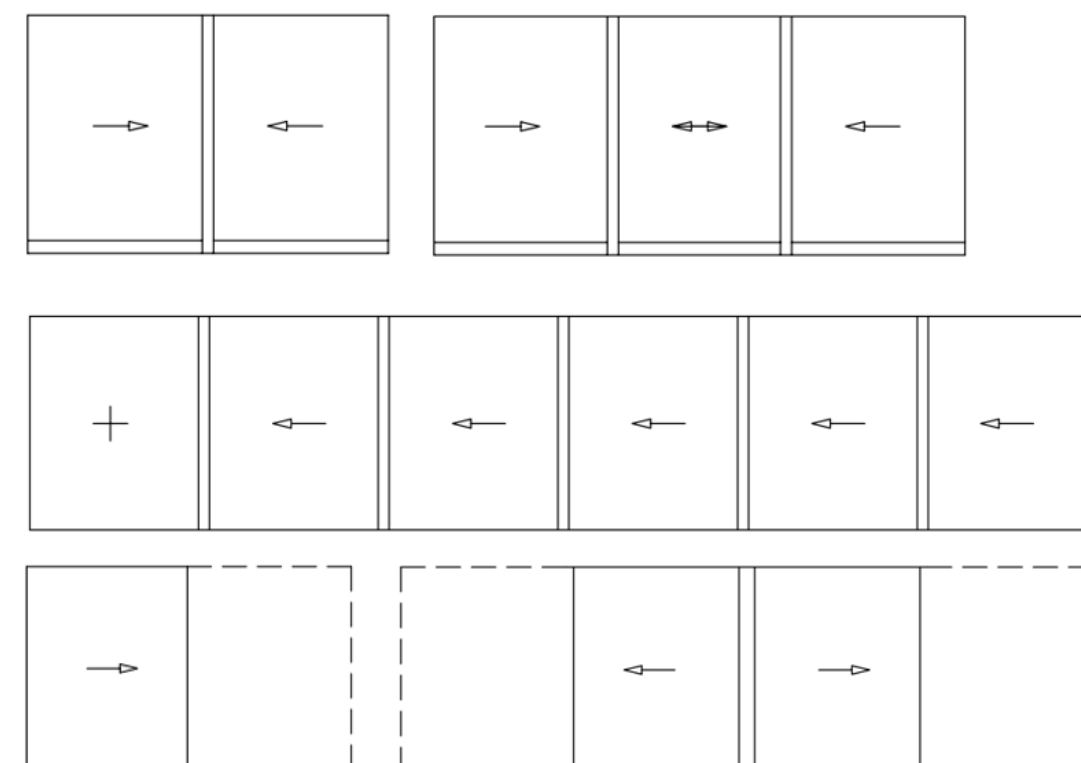

KD SLIDING WINDOW

Our aluminum sliding window utilizes the same German ROTO hardware as our sliding doors which allows for large constructions and a wide variety of configurations. Available with a wide variety of handles and even retractable insect screens, this versatile window is the perfect choice for everyone that enjoys minimal profiles and values a traditional American window design.

KD PICTURE WINDOW & STOREFRONT

Our Picture windows are available in a wide variety of shapes and sizes. On large window elements, structural reinforcements are used to allow for massive glass sizes. Available with triple glazing, our picture windows are the perfect choice for anyone to enjoy the light without the heat that usually comes with it.
